Ica, Nazca, and Pisco

- The Nazca lines are a series of geoglyphs inscribed into the Nazca Desert of Peru. Here you will be able to see many figures spread across 500 square kilometres of the arid Peruvian desert. Many of these complex designs are so large, with some near 6 miles long, that the whole design can only possibly be seen from the air.
- No one can explain who put the lines there— ancient gods, aliens, or the Nazca civilization. Like the Pyramids of Egypt, the Nazca Lines have a timeless ability to captivate our imaginations.
- This trip also includes an incredible journey to the Paracas Reserves and while on the Reserve you will learn about one of the most important pre-Inca civilizations while viewing the different animals on the reserve: seals, sea lions, pelicans and much more. The natural setting of this package is perfect for one who is interested in wild life.
